

Audit Report

Blue Rose (Bath) (10000)

Audit No. 9 / 31

Start date 26-Nov-13

End date 17-Dec-13

Days 22

Food G.P before allowances has fallen from 65.8% to 62.9%

Food G.P after allowances has fallen from 68.1% to 65.5%

Food sales per day have fallen from £689.16 to £686.21

Food stock holding has increased from 7.22 to 8.40 days

Allowances have risen from 2.3% to 2.6% (At cost)

Food stock value has decreased from £1417.32 to £1781.45

There is a difference of £29.50 between declared sales and final Z till reading for the period.

Not a good food stock result with a low G.P of 62.9% a drop of -2.9% from last periods 65.8%, sales have fallen marginally, which is not good for this time of year (Christmas), allowances have also increased, and stock holding is ok at 8 days.

Overall a poor food stock result, G.P's should be higher, certainly above 65.0% and ideally closer to 70.0%.

All food areas were well kept, clean, and the stock was easily countable.

Any questions regarding the stocktake then please give me a call

Many thanks

Nick
